# Engineering the backbone of India's clean energy

**Adaptive Engineering Pvt. Ltd. (AEPL)** is India's Market Leader in renewable energy automation, control, and electrical solutions, delivering technology that powers utility-scale clean energy infrastructure.

With over 16 years of domain expertise and an installed base exceeding 90GW, AEPL has become the engineering partner of choice for India's largest solar, wind, BESS, and hybrid energy projects.

Our integrated portfolio includes SCADA, Power Plant Controllers (PPC), Energy Management Systems (EMS) for BESS, Substation Automation (SAS), RMS for PM KUSUM, Central Monitoring System (CMS), Asset Management System (AMS) and LT/MV panels.

All engineered and manufactured in-house in our State of the art, dust free manufacturing facility to ensure performance, reliability, and seamless integration.

Proven across 750+ commissioned projects, our solutions are backed by a team of 450+ manpower and an annual execution capacity exceeding 40GW.

As India advances toward its 500GW+ renewable energy vision, AEPL continues to enable the energy transition through engineering excellence, innovation, and execution at scale.

**MISSION**

**Continuously evolve to maximize the value of each installation**

## We run on SCALE

# One platform, plant to portfolio

URS unifies acquisition, control and reporting across solar, wind, BESS, and hybrid assets from a single inverter to a national fleet

## SCADA

- Flexible & Scalable Architecture
- Rich set of Renewable Libraries
- Seamless Handling of 10 Lacs+ Tags
- Refined interface from decades of experience

## PPC

- Grid Code Compliant
- HIL Type Tested
- Automatic Generation Control (AGC) Ready
- Forecast & Schedule Synchronization

## CMS

- Insightful View of the Entire Portfolio
- Measure KPIs against Targeted Data
- ML Based Anomaly Detection
- Conversational AI

## Advanced Analytics

- Advanced Data Visualization
- Accurate Loss Buckets
- Custom Report Builder
- Analyse Historical Data

## AMS / CMMS

- Automated Workorder Management
- Standardized SOPs Across Enterprise
- Reduced Mean Time to Repair
- Effective Cost Control & Inventory Management

## EMS-BESS

- Indigenous Solution
- ML Based Energy Arbitrage
- State of Charge (SoC) Management
- Peak Shaving, Grid Support

# PM-KUSUM

## Solutions

**RMS** — IoT-based Edge Computing for data acquisition and control

**CMS** — Advanced monitoring and analytics for renewable energy portfolios

**AMS** — Asset Data | Maintenance | Inventory | Work Orders | Analytics & Reports

**ReportWiz** — KPI Insights | Analytics | Custom Reports | Scheduled Reporting | Multi-Format Export

**LT/MV Panels** — Type-Tested Panels | In - House Fabrication | Modular Panel Design | Native SCADA Integration | One Team | QR Code Access

**WMS** — Real-Time Weather Data | IEC-Standard Sensors | Performance Optimization | Forecast Analytics

## LT /MV PANELS

AEPL designs, manufactures and commissions LT & MV switchgear panels for renewable energy projects, backed by 16+ years of renewable-specific engineering expertise

## 6 Reasons We Outperform

**Type-Tested Panels** — Built for Renewable Energy

**In-House Fabrication** — Full Control of Quality & Delivery

**Modular Panel Design** — Field-Ready, Easy to Service

**Native SCADA Integration** — One Platform, Full Visibility

**One Team** — Full Ownership Across Panels and SCADA

**QR Code Access** — Secured, Authorised, Auditable
